

# City of Anaheim

Redistricting 2021

Total Population by Unit  
Eastern Area

An online version of this map that allows you to zoom in and out for more detail is available as a link from the City website.

Each number indicates the total population of that "population unit" area. Each district must have essentially equal population. The population of each of the 6 districts must be close to 57,804, with no more than a 5,780 difference between the largest and smallest.

These values are preliminary and may change with the release of the state's final adjusted database, which should be available in late September.
