Redistricting Process

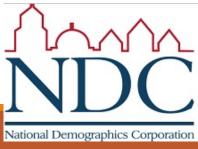

Step	Action
Census Data Release August 12, 2021	Census Bureau released Preliminary 2020 Census population data in legacy format.
Community Redistricting Meetings September 2021	Seven (7) Community Redistricting Meetings to review the redistricting process, introduce the mapping tools and receive public input on neighborhoods/communities of interest.
California Data Release Late September 2021	California Statewide Database releases California's official 'prisoner-adjusted' 2020 redistricting data, then a mandated three-week waiting period before maps are released.
Draft Map Hearings Oct. 5, 2021 & Nov. 2, 2021	Two Public Hearings to discuss and revise the draft maps and receive additional public input.
Community Redistricting Meetings November – December 2021	Seven (7) Community Redistricting Meetings to receive public input on neighborhoods/communities of interest and receive public input on draft maps.
Draft Map Hearings Jan. 2022 & Feb. 2022	Two Public Hearings to discuss and revise the draft maps and to adopt the final map.
Map Adoption By 4/17/2022	Final map must be posted at least 7 days prior to adoption. Map adopted via ordinance.

Redistricting Rules and Goals

1. Federal Laws

Equal population
Federal Voting
Rights Act
No racial
gerrymandering

2. California's Ranked Criteria

- 1. Geographic contiguity
- 2. Undivided neighborhoods and "communities of interest"
- 3. Easily identifiable boundaries
- 4. Compactness
 (Do not bypass one group of people to get to a more distant group of people)

Prohibited:

"Shall not favor or discriminate against a political party."

3. Other Goals & Traditional Principles

Minimize voters shifted to different election years

Respect voters' choices / continuity in office

Future population growth

Preserving the core of existing districts

Demographic Summary of Existing Districts

Estimates using preliminary 2020 demographic data and NDC's estimated total population figures.

Each of the 6 districts must contain about 57,804 people.

Story Map

Easy to use "story" of demographic and other data

- Similar to PowerPoint, but interactive
- Used to identify "communities of interest"
- Anaheim Story Map

Defining Neighborhoods

1st Question: What is your neighborhood?

2nd Question: What are its geographic boundaries?

Examples of physical features defining a neighborhood boundary:

- ☐ Natural neighborhood dividing lines, such as highway or major roads, rivers, canals and/or hills
- ☐ Areas around parks or schools
- ☐ Other neighborhood landmarks

In the absence of public testimony, planning records and other similar documents may provide definition.

Beyond Neighborhoods: Defining Communities of Interest

1st Question: What defines your community?

- ☐ Geographic Area, plus
- ☐ Shared issue or characteristic
 - Shared social or economic interest
 - □ Impacted by county policies
- ☐ Tell us "your community's story"

2nd Question: Would this community benefit from being "included within a single district for purposes of its effective and fair representation"?

Or would it benefit more from having multiple representatives?

Definitions of Communities of Interest may <u>not</u> include relationships with political parties, incumbents, or political candidates.

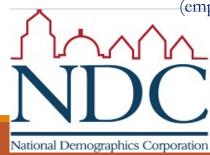

Beyond Neighborhoods: Communities

Under the California Elections Code, "community of interest" has a very specific definition in the context of districting and redistricting cities and counties:

A "community of interest" is a population that shares common social or economic interests that should be included within a single district for purposes of its effective and fair representation.

Communities of interest do not include relationships with political parties, incumbents, or political candidates.

The Redistricting Process

Every 10 years, local governments use new data from the Census to redraw their district lines to reflect how local populations have changed. Pursuant to Assembly Bill 849 (2019), cities and counties engage communities in the redistricting process by holding public hearings and workshops and doing public outreach, including to underrepresented and non-English-speaking communities.

Districts must be redrawn following each decennial federal census, so that each district is substantially equal in population. This process is important in ensuring that each City Councilmember and district represents about the same number of constituents. The City of Anaheim is asking for your help to plan, draw, and reshape new City districts.

The map of the City's current council districts was adopted by the City Council (Ordinance No. 6360) in February 2016, which served as the City's first boundary map [2016 Districting Process]. During the redistricting process, you will help us reshape the six Anaheim district boundaries, and these new districts will impact how you elect your Council Members for the next 10 years.

Our primary goal when developing election districts is to draw lines that respect neighborhoods, history and geographical elements. So we want to know: What do you consider the boundaries of your neighborhood?
