Hello city Council

Regarding the Anaheim re-districting maps I am in favor of map 102 western area. and 106 Eastern area.

key points to consider, it will keep the Colony in district 3 together and Platinum Triangle in district 5 together.

I also decided to push District 5 to Tustin Avenue due to the fact that residents in that area feel neglected. I know a few residents that live on Kodak and they have never had any council member at that location nor know anything about Anaheim services. I would like to encourage the city council to take a look at both maps that I've recommended.

I have played with the redistricting tool and the western area of map 102 and Eastern area of map 106, if put together, it fulfills the criteria of the cities requirements for re-districting.

Please take my petition into consideration as I've been an Anaheim resident for almost 45 years. I have raised all my children and now grandchildren in our city.

Best Regards,

Rosa Felix

Dear Mayor Sidhu and Anaheim City Council,

As a resident of the City of Anaheim at _____ Anaheim CA 92802, I ask you to please approve Map 114, Anaheim Now, as the new district map for the city of Anaheim for the next decade. Map 114 is the true successor to the original People's Map and keeps the original vision we sought for Anaheim 6 years ago. Keeps communities of interest and neighborhoods intact. Unites the Colony in one district and keeps it with other historic neighborhoods and keeps greater Little Arabia united. Map 114 respects neighborhood boundaries and is not gerrymandered, keeping district boundaries along main streets and thoroughfares and following basic redistricting principles. This map creates 3 Federal Voting Rights Section 2 districts for the growing Latino population in the central part of the city. Map 114 truly continues the spirit of the original People's Map but is modernized to adjust for changes in the 2020 census while allowing for the change that is needed without drastically altering what is already a fair map. Other maps either pack Latino voters into only one district or attempt to crack them to limit their ability to elect representatives of their choice while other maps do create three majority seats but divide neighborhoods or communities of interest in the process. It is important that the Council approve a map that follows the original intent of the Federal and California Voting Rights Act while respecting neighborhood integrity. We ask you to please approve Map 114, Anaheim Now.

Sincerely,

veronica Chavez

Hello Council,

From the maps the public has provided I think the best Map for our city would be map 102 for the flat land. This makes the most sense. Also, for the hills map 106 looks good.

Thank you,
Jeanette Saldivar
