Hola mi nombre es Guadalupe y vivo en Ponderosa he sido voluntaria en mi escuela por mucho tiempo también he pertenecido a PTA,PLI, DILAC, y también soy voluntaria con Madres en Acción Ponderosa. Mi comunidad es un lugar donde la mayoría nos apoyamos. Aprendí de Redistribución con OCCORD ya que nos invitaron a sus talleres y es por eso que hoy uso mi voz para apoyar el mapa 114 , es el mapa que mejor representa mis intereses y los de mi comunidad.

Le pido al Mayor Sidhu y a mi consejal Sr Valencia que apoyen a la comunidad eligiendo el mapa 114.

Mi nombre es Guadalupe y vivo en Ponderosa, he sido parte de PTA, DILAC Y PLA de la escuela primaria Ponderosa. Mi comunidad está llena de gente trabajadora, responsable. La mayoría compartimos la misma cultura y hablamos español.

Acudí a las diferentes juntas en Ponderosa sobre redistribución, y con OCCORD. Aprendí sobre la forma en que nos benefició tener más distritos en Anaheim y que las personas que nos representan deben vivir en el distrito de esa forma nos aseguramos que realmente escuchen nuestros problemas ya que son nuestros vecinos.

Apoyo el map 114 porque es el mapa que representa lo que mi comunidad desea, además que no se aleja mucho del mapa original y respeta vecindarios con historia.

Señor Alcalde Sidhu y señor consejal Valencia es hora de demostrar que son pro comunidad. ESCÚCHENME Y APÓYENOS.

Mapa 114.

**Warning:** This email originated from outside the City of Anaheim. **Do not click links or open attachments** unless you recognize the sender and are expecting the message.

Dear Mayor Sidhu and Council members,

My name is Maritza Bermudez, I am a community organizer with OCCCO and I participate at Saint Boniface Church. I am also a lifelong City of Anaheim resident of 42 years and I currently live in district 3.

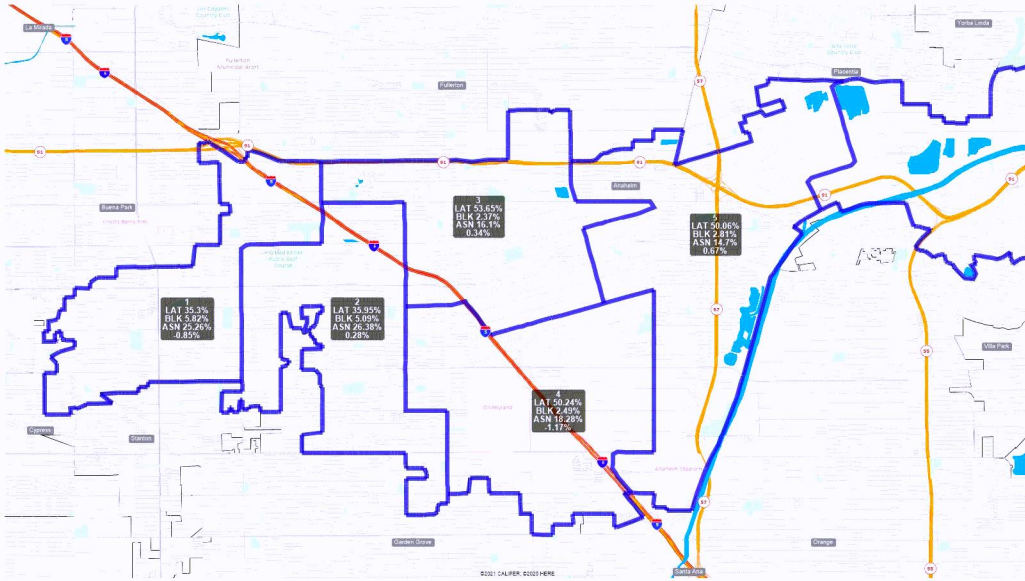

I would like to share with you all who and where my community of interest is located. The area that I live in is composed of the Vine, Bush, and Rose neighborhood. My community of interest are renters who live in high density populated apartments and are mostly low income working class. Currently we are at the border of district 3 and 5 with East St. being the dividing street. One of the suggestions that I have made since the beginning of this process is to include and incorporate Sycamore JHS into district 3. The reason for this suggestion was because many of the students that attend Sycamore JHS come from district 3 and it would only make sense that these communities of interest be in the same district and be represented by the same district council person. This would help in addressing the needs and issues of these communities of interest and help have more equitable representation.

I am in support of proposed draft map 114.

I support draft map 114 because it advocates for the original People's Map from 2016 and for 3 Latinx CVAP districts that would also support low-income, working-class communities that have shared the need for affordable housing and language access.

However, I want to advocate for a few changes to the 114 map in order for it to fully represent my community. The changes that I am proposing are as following:

- District 3 takes in Sycamore Junior High from District 5
- District 5 takes from District 4 - area between E South St, E Santa Ana St and S East St, S State College Blvd.
- District 4 takes from District 3 - area between S Euclid, S Gilbuck Dr and W Broadway, and W Crone Ave.

We must keep our community of interest together because it would allow us to feel empowered and to express ourselves as a united voice. I ask you to please consider the proposed map 114 with the adjustments that we are suggesting.

Thank you for your time and consideration,

**Warning: This email originated from outside the City of Anaheim. Do not click links or open attachments unless you recognize the sender and are expecting the message.**

Estimado Alcalde y Concilio,

Mi nombre es María Belém Carpio, soy líder comunitario en OCCCO y me congrego en la iglesia San bonifacio. También soy residente de Anaheim y vivo en el distrito 3. Tengo 22 años viviendo en la ciudad de Anaheim.

Me gustaría compartir con ustedes dónde está mi comunidad de interés. En el área de Anaheim donde yo vivo la comunidad es predominantemente área de inquilinos.

Estoy en apoyo de la Propuesta del Mapa 114.

Yo apoyo la propuesta del mapa 114 porque aboga por el mapa original del People's Map del 2016 y porque tiene 3 distritos donde la mayoría son Latinos. Esto apoya a las comunidades de clase trabajadora de bajos ingresos que han compartido la necesidad de vivienda asequible y acceso al idioma.

Sin embargo, quiero abogar por algunos cambios en el mapa 114 para que represente completamente a mi comunidad. Los cambios que estoy sugiriendo son los siguientes:

- Distrito 3 toma a la secundaria Sycamore del Distrito 5
- Distrito 5 toma del Distrito 4 en la área entre E South St, E Santa Ana St y S East St, S State College Blvd.
- Distrito 4 toma del Distrito 3 en la área de entre S Euclid, S Gilbuck Dr, W Broadway, y W Crone Ave.

Debemos mantener unida a nuestra comunidad porque nos permitiría mantener nuestra riqueza y daría poder de expresarnos como una voz unida. Les pido que consideren la propuesta del mapa 114 con los ajustes que estamos sugiriendo.

**Gracias por su atención y tiempo,  
María Belem Carpio**

**From:** Javier Lopez  
**Sent:** Monday, February 28, 2022 6:10 PM  
**To:** Public Comment  
**Cc:** Christina Nguyen; mdeleon@ocapica.org  
**Subject:** [EXTERNAL] Anaheim public testimony for map 114 with amendments

**Warning: This email originated from outside the City of Anaheim. Do not click links or open attachments unless you recognize the sender and are expecting the message.**

Hello Anaheim City Councilmembers,

My name is Javier Lopez and I am a resident of Anaheim from District 2. I am a lifelong resident of Anaheim, having been born and raised here for the past 17 years. I come from a mostly Hispanic, yet diverse, multigenerational community located near Lincoln Ave and Euclid Street.

I am here in support of adjusting Map Proposal 114

I support the 114 map proposal because it advocates for the original 2016 People's Map and for the implementation of three Latinx CVAPs that would support low-income, working-class communities that have a shared need for affordable housing and language access.

However, I want to advocate for a few changes to the 114 map in order for it to fully represent my community. Having grown up in Anaheim, I have been able to interact with various communities around my neighborhood. In particular, the area below Ball Rd. intersected by District 2 and District 4 on Euclid is a community that should be kept whole and together.

With the adjustments provided to Map Proposal 114, the area bisected by District 2 and District 4 on Euclid can be kept whole and together by extending the District 2 boundary to include the community south of W Cerritos Ave. and west of S 9th St. While a small adjustment, this shift can ensure a cohesive community since I believe these people deserve to be together in one district.

These residents go to the same schools, stores, and parks and this agreement is noticeable too. Often when I go around this area I see people across the street from district four crossing over to district two and talking and hanging with each other. They think of each other as a community and I also think of them as part of my community.

Adjusting Map Proposal 114 would provide a better representative map that considers the various communities, neighborhoods, and areas of interest established in and around Anaheim. These adjustments also re-position Sycamore JHS from District 5 to District 3 to better provide community resources for the community, an adjustment that has been considered in all of the other chosen maps by the city council in the past (102, 104, 106).

This proposal is in compliance with the federal Voting Rights Act and was developed in collaboration with our respective communities to include districts that are equal in size, contiguous, compact, and respect the city lines as much as possible.

Please support adjusting Map Proposal 114 to maintain cohesion with the community around Ball and Euclid, to include the Sycamore community from District 5 into District 3, and to maintain the integrity of the created 3 Latinx, low-income, limited language access CVAPs.

Thank you!

Javier Lopez

**Warning: This email originated from outside the City of Anaheim. Do not click links or open attachments unless you recognize the sender and are expecting the message.**

My name is Brenda Barrera. I heard about the redistricting through the community forums that OCCORD is doing around our community. I have lived in District 4 since I was eight years old. I went to the local schools of the anaheim school district until I graduated from high school. Now I am 24 years old and I am a manager of a children's entertainment center. What I love most about my community is the diversity of culture and how they come together and work in unity to achieve things that benefit everybody. I am supporting the map 114 because it is what best represents my personal interests. It also maintains the historical neighborhoods like "The Colony." I hope that my opinion is taken into consideration and the vote of the mayor and council members goes to the map that the community is advocating for.

Best regards,  
Brenda Barrera

 Tony Wong - Anaheim Resident Testimony

Virus-free. [www.avg.com](http://www.avg.com)

***Tony Wong***

Hello Anaheim City Councilmembers,

My name is Tony Wong and I am a highschool student and resident of Anaheim from District 1. I have lived in Anaheim for well over 2 years and recognize its diverse and multigenerational community.

I am here in support of adjusting Map Proposal 114

I support the 114 map proposal with adjustments because it advocates for the original 2016 People's Map with the implementation of 3 Latinx CVAPs that would support low-income, working-class communities that have a shared need for affordable housing and language access.

While we consider the entirety of Anaheim, my community base is comprised of mobile home estates and apartments that hold a concentrated community of low-income families and individuals impacted by the Covid-19 pandemic. Many of these residents struggle with looking for sustainable income as they have issues finding work during the pandemic, depending on the occupation, and due to lack of language access.

Adjusting Map Proposal 114 would provide a better representative map that considers the various communities, neighborhoods, and areas of interest established in and around Anaheim. These adjustments also re-position Sycamore JHS from District 5 to District 3 to better provide community resources for the community, an adjustment that has been considered in all of the other chosen maps by the city council in the past (102, 104, 106).

This proposal is in compliance with the federal Voting Rights Act and was developed in collaboration with our respective communities to include districts that are equal in size, contiguous, compact, and respect the city lines as much as possible.

Please support adjusting Map Proposal 114 to include the Sycamore community from District 5 into District 3 while still maintaining the integrity of the created 3 Latinx, low-income, limited language access CVAPs.

Thank you!

Tony Wong

***Edited***

***Jason Xaymountry***

Hello Anaheim City Councilmembers,

My name is Jason Xaymountry and I am a resident of Anaheim from District 2. Having been born and raised in Anaheim, I have lived here for the past 18 years and recognize its diverse and multigenerational community. My home is by Cerritos Ave, around Disneyland.

I am here in support of adjusting Map Proposal 114

I support the 114 map proposal because it advocates for the original 2016 People's Map and for the implementation of 3 Latinx CVAPs that would also support low-income, working-class communities that have a shared need for affordable housing and language access.

However, I want to advocate for a few changes to the 114 map proposal in order for it to fully represent my community. While we consider the entirety of Anaheim, my community base is comprised of areas in District 3 and District 2. In consideration of these map proposals, certain areas in District 3 should be reallocated to District 2 such as making downtown Anaheim part of District 2. Several people around that area go there so it would make more sense to include it in district 2.

Adjusting Map Proposal 114 would provide a better representative map that considers the various communities, neighborhoods, and areas of interest established in and around Anaheim. These adjustments also re-position Sycamore JHS from District 5 to District 3 to better provide community resources for the community, an adjustment that has been considered in all of the other chosen maps by the city council in the past (102, 104, 106).

This proposal is in compliance with the federal Voting Rights Act and was developed in collaboration with our respective communities to include districts that are equal in size, contiguous, compact, and respect the city lines as much as possible.

Please support adjusting Map Proposal 114 to include the Sycamore community from District 5 into District 3 while still maintaining the integrity of the created 3 Latinx, low-income, limited language access CVAPs.

Thank you!

Jason Xaymountry

**Warning: This email originated from outside the City of Anaheim. Do not click links or open attachments unless you recognize the sender and are expecting the message.**

Good afternoon,

My name is Cindy Do and I am currently a student in the Anaheim Union High School District. I'll be attaching a testimony I have prepared down below. Let me know if you have any questions.

Best,

**Cindy Do**  
Oxford Academy '22

Hello Anaheim City Councilmembers,

My name is Cindy Do and I am a student of Oxford Academy, part of the Anaheim Union High School District.

I am here in support of Map Proposal 114 with amendments.

I support the 114 map proposal because it advocates for the original 2016 People's Map which was drafted through meaningful community engagement to ensure a representative and cohesive Anaheim. Map Proposal 114 would also put forth the implementation of three Latinx VRAs that would support low-income, working-class communities that have a collective need for affordable housing and language access.

However, I want to advocate amendments to the 114 map proposal in order for it to fully represent the constituents of these communities. Adjusting Map Proposal 114 would provide a better representative map that considers the various communities, neighborhoods, and areas of interest established in and around Anaheim. While we consider the entirety of Anaheim, my community base centers the needs and challenges of immigrant families and our youth.

These amendments include moving Sycamore Junior High School from District 5 to District 3 to better support the needs of the students and their families. As a student who is currently part of the Anaheim Union High School District, I personally understand the struggle of being unable to attain the necessary resources in order to gain a proper education, especially for low-income communities. This adjustment has also been implemented by the map proposals considered by city council in the past (102,104,106)

This proposal is in compliance with the federal Voting Rights Act and was developed in collaboration with our respective communities to include districts that are equal in size, contiguous, compact, and respect the city lines as much as possible.

Please support adjusting Map Proposal 114 to include the Sycamore community from District 5 into District 3 while still maintaining the integrity of the created 3 Latinx, low-income, limited language access CVAPs.

Thank you!

Cindy Do

**Sent:** Tuesday, March 1, 2022 1:49 PM  
**To:** Public Comment  
**Subject:** [EXTERNAL] March 1st Council Meeting public comment for Item 11, a Public Hearing

**Warning: This email originated from outside the City of Anaheim. Do not click links or open attachments unless you recognize the sender and are expecting the message.**

Good Day:

As the designer of the Redistricting Map 102, I would like to point out a few key points about the map, and why I feel it best matches the requirements announced last year.

It protects the major communities of interest:

West Anaheim (East of Euclid).  
Anaheim Colony  
Platinum Triangle  
Anaheim Hills  
The Resort Area  
Pondarosa  
Beach Boulevard Specific Plan  
Little Arabia  
Places the Syracuse Junior High in District 3 (A request of the Public)

Councilmember Diaz mentioned the need for more Hispanic districts. Basically all maps have 5 districts that contain a majority of Hispanics. Anaheim Hills is the exception. There are two numbers that are discussed. Total Hispanics living in a district, and the "CVAP" (Citizen Voting Age by Population), or looking at those Hispanics who are eligible to vote (Over 18 and a citizen of the US). In 2016, only one district had a majority CVAP, District 3.

But we have had two Hispanics elected in District 1 (CVAP of 35%) and one in District 4 (48% CVAP), along with a Hispanic in District 3.

But Hispanics are not the only minority with a large population in the city. Asians have about a 25% in West Anaheim in Districts 1 & 2, and about 22% in District 6.

Why should we lessen the Asian groups to get to 3 Hispanic CVAP districts? We have seen that Hispanics being elected, along with a Mayor who is minority. This is why I am asking that District 2, which was approved in 2016, remain the same on the new map.

One key point that Dr. Levitt has brought up at all the workshops. Federal law states No Racial Gerrymandering.

Another key point is in the "California's Ranked Criteria", which are.

1. Geographic Contiguity
2. Undivided neighborhoods and "Communities of Interest"
3. Easily identifiable Borders

#### 4. Compactness

My map was drawn with Points 2, which kept the communities of interest identified in 2016 together, AND point 3, Easily Identifiable Borders. Using the original borders decided in 2016 keeps most folks in the same district, and then the minor changes needed due to population growth used very identifiable borders. Such as using South and East Streets (Colony borders) and Interstate 5.

Jim Stevenson wrote an public comment e-mail on February 8th titled Redistricting map preference and comments. He brings up a good point about using Easily Identifiable Borders.

>> My final points in favor of this map [#102] are in how it can address the "confidence in the process" goals of district representation.

Multiple studies on both the state and national levels show that voters don't trust maps that have many odd shapes and fingers.

Such maps give the appearance of elected officials selecting their voters, not of voters selecting their representatives. Even when made with virtuous intentions such as making majority-minority districts, "amoeba-like" political boundaries breed distrust in voters. This is why the State of California and many national redistricting advocacy groups promote and use metrics such as "polygon score" to encourage rational boundaries that common people recognize. In Anaheim, freeways like the 5, and major boulevards such as Euclid and StateCollege should serve as such boundaries when possible to encourage public trust.<<

I was proud when Dr. Levitt has stated that my map would have been very similar to a map his firm would draw up.

As a resident, I am not in favor of Map 114, since it breaks up West Anaheim, as it takes a portion of the current district that is East of Euclid and gives it to District 3. also map 114 didn't use the Easily Identifiable Borders as a focus.

I drew Map 102 to use the spirit of the 2016 districting map as a guide to protect the main communities of interest in the city, along with using Easily Identifiable Borders to make it easy for the residents of our city to figure out which district they live in.

Finally, I would like to thank Theresa Bass, the City Clerk Staff, Dr. Levitt and everyone else who helped make the Community Meeting possible. They were very professional and educational. Please keep West Anaheim whole, and not change the boundary of District 2.

I hope the Mayor, Mayor Pro Tem plus the City Councilmembers will seriously consider Map 102 as the new district map for the next decade.

Sincerely:

David Michael Klawe  
West Anaheim, District 2 resident

**To:** Public Comment  
**Cc:** Christina Nguyen; Manny DeLeon  
**Subject:** [EXTERNAL] Redistricting Testimony

**Warning: This email originated from outside the City of Anaheim. Do not click links or open attachments unless you recognize the sender and are expecting the message.**

Hello Anaheim City Councilmembers,

My name is Amin Nash and I currently work in Anaheim's District 2. My community is Little Arabia, located on Brookhurst from Crescent to Katella.

I am in support of adjusting Map Proposal 114.

I support the 114 map proposal because it maintains the integrity of Little Arabia and advocates for the original 2016 People's Map and for the implementation of 3 Latinx CVAPs that would also support low-income, working-class communities that have a shared need for affordable housing and language access.

However, I want to advocate for a few changes to the 114 map in order for it to fully represent my community. While we consider the entirety of Anaheim, my community base is comprised of Arabs, Latinx, and Asian businesses and business owners.

Adjusting Map Proposal 114 would provide a better representative map that considers the various communities, neighborhoods, and areas of interest established in and around Anaheim. These adjustments also re-position Sycamore Junior High School from District 5 to District 3 to better provide community resources for the community, an adjustment that has been considered in all of the other chosen maps by the city council in the past (102, 104, 106).

Furthermore, the proposals of this map keep the integrity of Little Arabia, which is a cultural and business district located in District 2. This map honors the residents, workers, and businesspeople's desires to have access to a single representative who will care for the needs and desires of the corridor. It also respects the history and impacts the Arab community has brought to Anaheim.

This proposal is in compliance with the federal Voting Rights Act and was developed in collaboration with our respective communities to include districts that are equal in size, contiguous, compact, and respect the city lines as much as possible.

Lastly, while I know some members of the community may not receive what they are asking for, I hope that communities in Anaheim can continue to work together in harmony in making Anaheim a wonderful place to be.

Thank you for keeping Little Arabia in mind. Please support adjusting Map Proposal 114 to include the Sycamore community from District 5 into District 3 while still maintaining the integrity of the created 3 Latinx, low-income, limited language access CVAPs.

Thank you!  
Amin Nash

**Cc:** Christina Nguyen; Manny DeLeon  
**Subject:** [EXTERNAL] Redistricting

**Warning: This email originated from outside the City of Anaheim. Do not click links or open attachments unless you recognize the sender and are expecting the message.**

Hello Anaheim City Councilmembers,

My name is Rashad Al-Dabbagh and I am speaking on behalf of the Arab American Civic Council, a community organization based in Anaheim's Little Arabia in District 2. I have lived in Anaheim for 17 years and recognize its diverse community.

I am here in support of adjusting Map Proposal 114.

I support the 114 map proposal because it advocates for the original 2016 People's Map and for the implementation of 3 Latinx CVAPs that would also support low-income, working-class communities that have a shared need for affordable housing and language access.

However, I want to advocate for a few changes to the 114 map in order for it to fully represent my community. Adjusting Map Proposal 114 would provide a better representative map that considers the various communities, neighborhoods, and areas of interest established in and around Anaheim. These adjustments also re-position Sycamore Junior High School from District 5 to District 3 to better provide community resources for the community, an adjustment that has been considered in all of the other chosen maps by the city council in the past (102, 104, 106).

This proposal is in compliance with the federal Voting Rights Act and was developed in collaboration with our respective communities to include districts that are equal in size, contiguous, compact, and respect the city lines as much as possible.

Additionally, this proposal keeps Little Arabia whole in District 2. Anaheim's Little Arabia is a business and cultural destination, and safe space for Arabic-speaking immigrants as well as other immigrants and refugees from the Greater Middle Eastern region.

Please support adjusting Map Proposal 114 to include the Sycamore community from District 5 into District 3 while still maintaining the integrity of the created 3 Latinx, low-income, limited language access CVAPs.

Thank you!

Hello council,

My name is Jason Xaymountry and I am a resident of Anaheim. Here is my public testimony for tonight's public hearing March 1, 2022

Thank you,  
Jason

Hello Anaheim City Councilmembers,

My name is Jason Xaymountry and I am a resident of Anaheim from District 2. Having been born and raised in Anaheim, I have lived here for the past 18 years and recognize its diverse and multigenerational community. My home is by Cerritos Ave, around Disneyland.

I am here in support of adjusting Map Proposal 114

I support the 114 map proposal because it advocates for the original 2016 People's Map and for the implementation of 3 Latinx CVAPs that would also support low-income, working-class communities that have a shared need for affordable housing and language access.

However, I want to advocate for a few changes to the 114 map proposal in order for it to fully represent my community. While we consider the entirety of Anaheim, my community base is comprised of areas in District 3 and District 2. In consideration of these map proposals, certain areas in District 3 should be reallocated to District 2 such as making downtown Anaheim part of District 2. Several people around that area go there so it would make more sense to include it in district 2.

Adjusting Map Proposal 114 would provide a better representative map that considers the various communities, neighborhoods, and areas of interest established in and around Anaheim. These adjustments also re-position Sycamore JHS from District 5 to District 3 to better provide community resources for the community, an adjustment that has been considered in all of the other chosen maps by the city council in the past (102, 104, 106).

This proposal is in compliance with the federal Voting Rights Act and was developed in collaboration with our respective communities to include districts that are equal in size, contiguous, compact, and respect the city lines as much as possible.

Please support adjusting Map Proposal 114 to include the Sycamore community from District 5 into District 3 while still maintaining the integrity of the created 3 Latinx, low-income, limited language access CVAPs.

Thank you!

Jason Xaymountry

Hello Anaheim city council,

On behalf of the Anaheim City Redistricting Committee, this is our public testimony in support of map proposal 114 with amendments. Thank you for all of your work and for accepting public commentary

Thank you,

Manny

Field Coordinator, Policy and Civic Engagement

Orange County Asian and Pacific Islander Community Alliance (OCAPICA)

## Anaheim City Redistricting Coalition

We as the Anaheim City Redistricting Coalition (ACRC) are a coalition of community-based organizations that have historically served the greater Anaheim population. Established in June 2021, we as, OCCCO, OCCORD, and OCAPICA have engaged with our respective community bases in a genuine effort to uplift and advocate for a representative map based on public feedback and community insight.

In consideration of the current slate of map proposals and the needs of our communities, we support Map Proposal 114 with amendments.

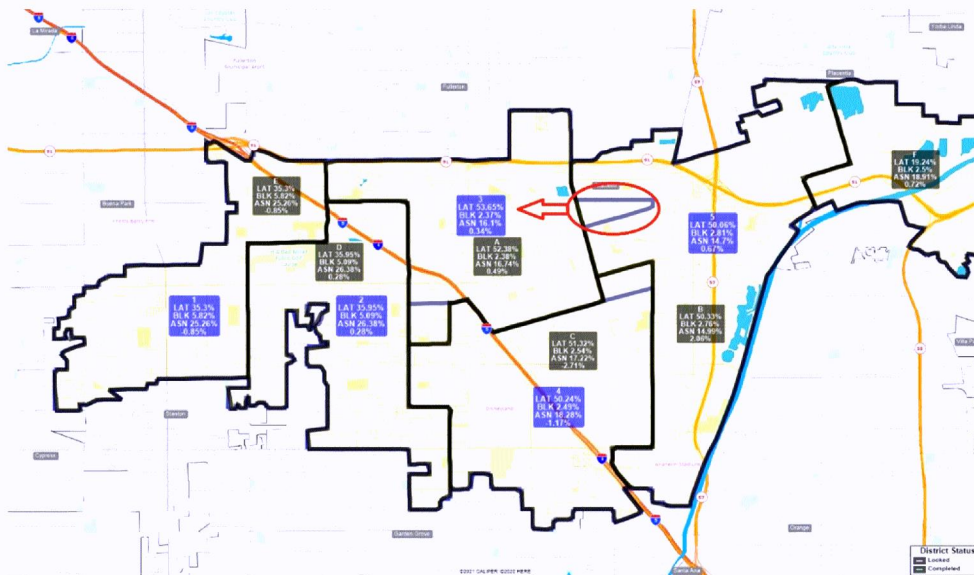

**Commented [1]:** provide exact date?

**Commented [2]:** spell out organizational name?

**Commented [3]:** Do we include AACC and ACLU here as well?

**Commented [4]:** Articulate COI e.g. youth, working-class population, families, etc.

### Map Proposals 114 with amendments:

Although Map Proposal 114 stands on precedent from the previously implemented 2016 People's Map, adjusting Map Proposal 114 would provide a more representative map that considers the various communities, neighborhoods, and areas of interest we have engaged within and around Anaheim.

These adjustments would re-position the Sycamore community from District 5 into District 3 while still maintaining the integrity of the created three Latinx, low-income, limited language access CVAPs. The Sycamore community has expressed interest in this shift with the intention to accommodate Sycamore Junior High School to better provide community resources for the community. This adjustment has also been considered in all of the other chosen map proposals by the city council (102, 104, 106).

Our adjustment also maintains the community around Willow Park by making adjustments between District 3 and District 4. By extending the dividing line between Districts 3 and District 4 north to W Broadway from W Crone Ave, the Willow Park community can be kept whole and together within the area of District 4 south of W Broadway and east of S Euclid Street. Residents have uplifted similar community values, strong intergenerational interactions between members in the area, and a cohesive community despite district boundaries.

In an effort to maintain population equality, our map adjustments consolidated District 4 by defining its border with District 5 with E South St and S State College Blvd

These amendments are compliant with the federal Voting Rights Act and were developed in collaboration with our respective communities to include districts that are equal in size, contiguous, compact, and respect the city lines as much as possible.

Please support adjusting Map Proposal 114

 Anaheim Public comment for Map Proposal 114 and...

Hello Anaheim City Councilmembers,

My name is Josue Hernandez and I am a resident of Anaheim from District 2. I have been a resident of Anaheim since moving here four years ago. I consider the Brookhurst area my home and recognize the multigenerational and diverse community I am a part of.

I am here in support of adjusting Map Proposal 114

I support the 114 map proposal because it advocates for the original 2016 People's Map and for the implementation of three Latinx CVAPs that would also support low-income, working-class communities that have a shared need for affordable housing and language access.

However, I want to advocate for a few changes to the 114 map in order for it to fully represent my community. My community base is comprised of District 1 and District 2. I myself live in district 2 and an issue my neighborhood faces is parking. While the common misconception of dangerous neighborhoods are because of firearms my neighborhood faces a parking problem. With difficulty in parking, my neighbors have resorted to parking right on the street which can make it difficult and dangerous to drive in the area. This, in contrast to District 3 and District 4, stands apparent as it is obvious that it is a very well taken care of area especially since it is where Disneyland stands. This a very beautiful area of Anaheim as they are catered towards tourists and people who have the money to afford the hotel stays.

Adjusting Map Proposal 114 would provide a better representative map that considers the various communities, neighborhoods, and areas of interest established in and around Anaheim. These adjustments also re-position Sycamore JHS from District 5 to District 3 to better provide community resources for the community, an adjustment that has been considered in all of the other chosen maps by the city council in the past (102, 104, 106).

This proposal is in compliance with the federal Voting Rights Act and was developed in collaboration with our respective communities to include districts that are equal in size, contiguous, compact, and respect the city lines as much as possible.

Please support adjusting Map Proposal 114 to include the Sycamore community from District 5 into District 3 while still maintaining the integrity of the created 3 Latinx, low-income, limited language access CVAPs.

Thank you!

Josue Hernandez
